

DREW PARK

Streetscape and Beautification Plan

COMMUNITY MEETING:

Please plan on attending the City of Tampa's Drew Park Streetscape and Beautification Master Plan Community Meeting. The purpose of this meeting is for the community to review the conceptual designs and provide additional input for the Drew Park Streetscape and Beautification Plan project. Bayside Engineering and David Conner and Associates, consultants retained by the City for this project, previously conducted a Community Meeting on Tuesday, April 19, 2011, and made a brief presentation of their analysis of the Drew Park Community Redevelopment Area (CRA). During this meeting the community was given the opportunity to contribute their thoughts and concerns for consideration as part of the design process. Your attendance and participation at the meeting is encouraged, and an important part in the planning process.

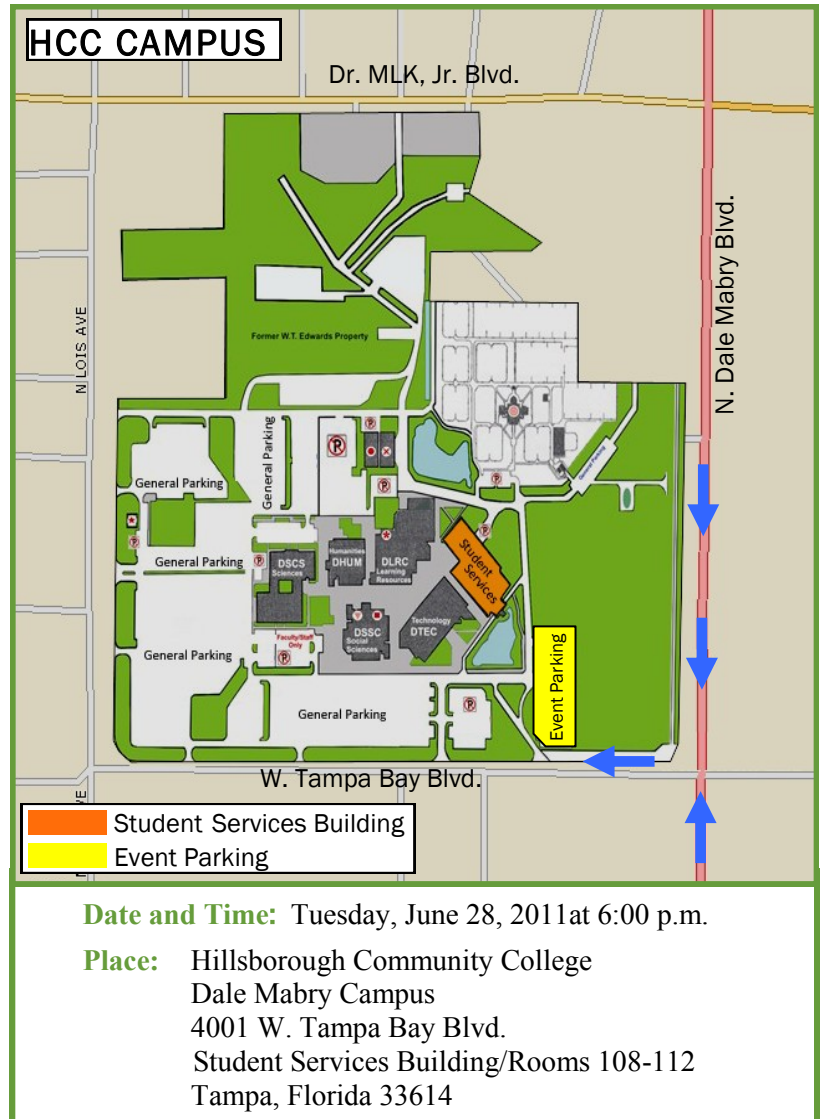

PROJECT OVERVIEW:

The Streetscape and Beautification Master Plan is being developed to improve the aesthetic conditions of the streets and public rights-of-way throughout Drew Park. Features being considered include decorative street lighting, gateway features, landscaping, and other improvements.

FUTURE MEETINGS:

The third and final meeting will be held in late summer for the community to review the final designs for the Drew Park Community Redevelopment Area (CRA) Streetscape and Beautification Master Plan.
